Introduction

INFRASERVE QATAR is a fully integrated professional services and project management organization and a major contributor in Qatar's key development sectors. We provide tailored solutions for our valued clients; industry expertise for building services, Life Safety Installations, Completions, Commissioning, Validation, Project Management, Statutory Regulations Support, Project Recovery, Operations and Maintenance services tailoring our clients' needs based on their individual requirements professionally.

25 Years of Experience

In MEP, building services, completions and commissioning.

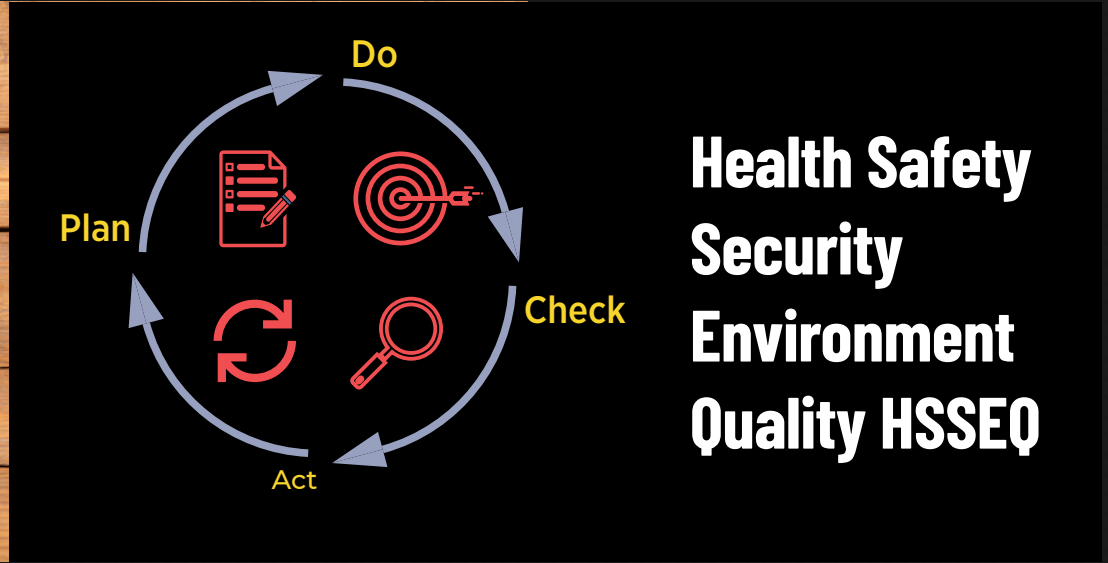

Building Relationships through **Sustainable Growth**

About Us

INFRASERVE QATAR was founded and established in the modern peninsula of Qatar. INFRASERVE QATAR integrates construction & commissioning professionals globally, for effectively and efficiently executing industry leading projects; providing a firm commitment to quality of service and tailoring client satisfaction. INFRASERVE QATAR has successfully aligned with industry partners which encompass the skills and expertise necessary to successfully execute large multi-facet projects, programmes and portfolios, whilst including joint ventures and solutions for small to medium business enterprises.

INFRA-SERVE QATAR maintains exceptionally high standards for health and safety, integrity and environmental protection. It is committed to delivering quality projects on budget and on schedule to the complete satisfaction of its clients and local municipalities.

No. 1 services provider for Qatar's 2030 vision and beyond

Our Mission

Health, Safety, Integrity & Environmental

"Aligning with Qatar's sustainability objectives for 2030, INFRASERVE QATAR intends to maximize building efficiency for building and personnel health, which shall provide end users and clients with reduced costs, through the execution of professional MEP and Aluminum services through our contracting division, re-commissioning services, professional operations and maintenance processes and procedures"

Our Vision

Bringing value to the market for self-sustainability through potential energy savings and emissions. Providing professional training and services as the No. 1 services provider in Qatar
